Scholarships are available to CSRB members.

Please go to www.coloradosarboard.org for details.

This conference has been approved for 12 hours of continuing education.

SCHEDULE

Saturday

8:00am - 9:30am

Death in the Dog: Body Recovery on the Wild & Scenic Chattooga River - 18 days, 492 shifts, 5926 man hours **Scott Krein**

A look into the multi-day recovery of a rafter on the deadly Chattooga river, the "Deliverance" river. This presentation will encompass lessons learned while working with Federal, State, & Local Agencies to uphold the conservation needs of the river while also providing closure for a family in need of locating their loved one.

9:45am - 10:45am

Simple, Complicated & Complex: Why Context Matters in SAR **Dale Atkins**

This presentation will step outside the usual SAR-type talk & introduce the differences between linear & predictable, & nonlinear & uncertain domains. Anticipating & properly identifying which context a SAR operation is operating within will improve operational efficiency & rescuer safety. Come & learn new ways to approach SAR problems & new ways to think about rescuer safety.

11:00am - 12:00pm

Closing the Gap: Integrating Medical Care Into Search & Rescue **Dr. DeWall**

Many SAR teams struggle with integrating BLS & ALS wilderness medical care in the Search & Rescue setting. This talk explores out of the box thinking that actually works to develop & implement an integrated Search & Rescue / Wilderness Medical Team model. This model was activated in Colorado this year.

BREAKOUT SESSION A

1:15pm - 2:00pm

Update on Avalanche Rescue Guidelines **Chris Carr**

An update on the Wilderness Medical Society's avalanche rescue & victim resuscitation guidelines & integration of advanced life support & critical care into the rescue package.

The Art & Science of a Knot **Tom Wood & Martin Barnett (PMI)**

This interactive session will involve knot-tying, as well as discussion of rope-strength reduction, & proper identification & application of knots.

Hands-On: ALS/BLS Airway

FFL Staff

BREAKOUT SESSION B

2:10pm - 2:55pm

Harness Hang Syndrome **Marc Beverly**

This session will discuss new concepts relative to harness suspension stress, as well as cover fact vs. myth.

Friction: Friend or Foe in Rope Systems? (Part 1 of 2*) **Alpine Rescue Team**

This hands on training session will turn abstract concepts & blanket statements you've heard about friction into real world examples. Armed with greater knowledge about friction will enable you to improve your technical rope systems. Be ready to be surprised.

** You must attend both parts 1 & 2 during Breakout Sessions B & C*

Hands-On: Band/Splinting

Conf. Faculty

BREAKOUT SESSION C
3:15pm - 4:00pm

Tip: Attendees should choose one presentation to attend for each Breakout Session.

Friction: Friend or Foe in Rope Systems? (Part 2 of 2*) **Alpine Rescue Team**

This hands on training session will turn abstract concepts & blanket statements you've heard about friction into real world examples. Armed with greater knowledge about friction will enable you to improve your technical rope systems. Be ready to be surprised.

** You must attend both parts 1 & 2 during Breakout Sessions B & C*

Colorado State Grant Program **Eric Schmidt**

This session will explore grant-monies available to Colorado SAR groups, as well as ways in which to access it.

Hands-On: Lift Ticket **FFL Staff**

4:10pm - 5:30pm

Cellular Forensics in SAR: A Mountain Search Case Study **Loren Pfau, Alpine Rescue Team**

This class will talk about the search management & planning along with the analyzing of the cellphone record forensics provided by the AFRCC/Civil Air Patrol that was used during this 107 day search for two lost hikers in the Mount Evans area of Colorado.

Sunday *Choose one of the options below:*

OPTION 1
8:00am - 12:00pm
OUTDOOR LAB: Tactical Medicine for the Mountains **Chris Carr & Candace Horgan**

8:00am - 10:00am
OUTDOOR LABS: Swift Water Rescue **Scott Krein**
Highline Rescue **Tom Wood & Martin Barnett (PMI)**

OPTION 2
10:00am - 12:00pm
UAV's in Search & Rescue **Morris Hansen**

This session will go over what Douglas County Search & Rescue team has learned in building a UAV program. Lessons learned, who was involved, how to address the public perception, developing a policy, funding, etc. Will also review current program status, what equipment is being used, training plan, FAA certifications, etc.
